Door Panel: Solid Wood Veneer Finished

Olid wood veneer is to take logs as raw material, then cut it into 0.6mm veneer And aftersoaking, drying, and then with the United States Xuanwei paint. Special process and made,and finally laid on the surface of the furniture. Solid wood veneer can be made into a varietyof finishes and baking paint, suitable for a variety of styles of furniture.Solid wood veneerretains the feel of solid wood. The more natural and comfortable the veneer is to the touch,the more solid wood veneer can replace solid wood, with a similar effect, but at a muchlower price.
